## Get a head start on summer employment with a summer job voucher!

The application period for summer job vouchers starts on February 2, 2026. The first summer job voucher reservations will become effective on February 6, 2026.

The vouchers are issued once a week on a first-come, first-served basis. A total of 320 vouchers will be distributed.

In 2026, summer job vouchers will be granted to young people born between 2005 and 2010 who are residents of Rauma or originally from Rauma.

One voucher will be issued per person, and the value of one voucher is 480 euros. The voucher is valid for three weeks at a time.

You can apply for a summer job voucher using an online form. The form can be found on the City of Rauma website at the beginning of the application period in [www.rauma.fi/kesatyosetelit](http://www.rauma.fi/kesatyosetelit).

The employer must be a company or association based in Rauma. Companies based in Rauma that have their registered office elsewhere can also act as employers if they hire young people from Rauma in Rauma or a student from Rauma who has moved elsewhere and is returning to work in Rauma for the summer.

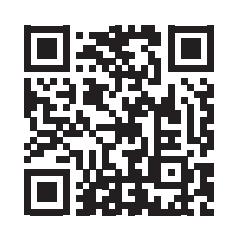

You can apply for summer jobs by contacting companies directly or by searching open positions at [tyomarkkinatori.fi](http://tyomarkkinatori.fi) and [kesatyo.fi](http://kesatyo.fi). It is advisable to prepare for the job search by creating a CV and a short personal introduction. We recommend starting your job search early.

Please note that you cannot receive support from the City of Rauma's Summer Entrepreneur Programme concurrently with the summer job voucher.

### Instructions and application form

In Finnish

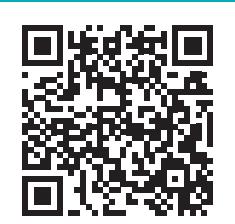

In 2026, summer job vouchers will be granted to people born between 2005 and 2010 who are residents of Rauma or originally from Rauma.

Also in 2026, international students born between 2001 and 2010 will also be eligible to apply for summer job subsidies.

### Instructions and application form

(Summer voucher and summer entrepreneur campaign)

In English

## Are you interested in working as a summer entrepreneur?

What if you started a business only for the summer?

You will get support for your business and learn important skills. The great thing about summer entrepreneurship is that as an entrepreneur, you can decide for yourself what your company does and how much time you spend working as a summer entrepreneur.

Summer entrepreneurship is an easy and risk-free way to try your wings as an entrepreneur.

If you are interested in summer entrepreneurship, take a moment to think about your skills and what benefits your competence could bring to others. Practical ideas that are easy to implement are usually the most successful. You should also consider business activities that do not require large investments. Many summer entrepreneurs do household and gardening chores, such as lawn mowing, baking or window cleaning.

During the summer, you can work in paid employment and also work as a summer entrepreneur in Rauma. The entrepreneurial activity can be temporary, permanent, summer-long or project-based (event organisation, pop-up restaurant/café, fair sales, etc.). As a summer entrepreneur, you can decide this yourself. You can also establish a summer business together with other young people. In this case, each member of the group can apply for the subsidy separately.

### Business ID is not required

The City of Rauma's summer entrepreneurship activities are hobby-like and do not require obtaining a business ID. The programme is implemented in cooperation with Rauma 4H association. Establishing a 4H enterprise is free of charge for participants in the programme and does not require a lot of paperwork, but it is subject to the rules laid down for business operations, for example, in terms of taxation. It also requires simple accounting of income and expenses.

If necessary, a 4H enterprise can apply for affordable business insurance through the organisation and take care of invoicing that requires a business ID, for example, through Eezy. Other options include registering your own company and obtaining a business ID or operating through an invoicing service.

### Support from the City

The City of Rauma grants a separate summer entrepreneurship subsidy to summer entrepreneurs in Rauma, if the conditions for receiving the support are met. In 2026, the subsidy is €480. The minimum invoicing target for a summer enterprise is €240, which is a prerequisite for receiving the subsidy. The summer entrepreneurship subsidy is intended for young people from Rauma born between 2005 and 2010 who are looking to start a summer business. The age limit for international students is up to 25 years old during the current year. Summer entrepreneurs must attend the City of Rauma's

Summer Entrepreneurship Training (approx. 8 hours, incl. independent work), draw up a notice of establishment of the company and a business plan, and participate in mentoring.

You will have access to the City of Rauma's summer entrepreneurship mentor throughout the summer. Summer entrepreneurship subsidy is not available if you already receive other municipal summer employment support (municipal summer job voucher or subsidy for hiring a young employee). However, remember that you can become a summer entrepreneur in Rauma even if you are not entitled to the City of Rauma's summer entrepreneurship subsidy.

### Application

Applications for the City of Rauma's Summer Entrepreneurship Programme must be submitted electronically by March 31, 2026. The application and further information can be found at [www.rauma.fi/kesayrittajaEN](http://www.rauma.fi/kesayrittajaEN). You can get started with establishing your summer business by learning more about the topic online and during the sparring weeks!
